

# Practical shelved carts

## in hygienic design

### SHELVED CARTS FOR ALL YOUR NEEDS

Our shelved carts, smoking carts and wheeled racks are made of AISI 304 stainless steel, which makes them incredibly robust. They are all designed with hygiene in mind, making them well-suited for the food industry.

NTF-Aalborg manufactures carts for wire racks, wire baskets, smoking bars and smoking spears for, e.g. smoking, cooking, deli meat and cheese production.
