

Wall bracket kit for shoe, boot and glove holders

With shoe, boot and glove holders from NTF-Aalborg, you can easily and hygienically organize clothing in a large production.

The holders provide a quick overview of whether the equipment is clean and can be reused. They are also easy to access, clean and dry as they hang extended.

Our holders are available in four different standard widths. All products are made in an easy-to-clean and hygienic design, and meet the requirements of the food industry.

Both wall brackets and holders are made of AISI 304 stainless steel.

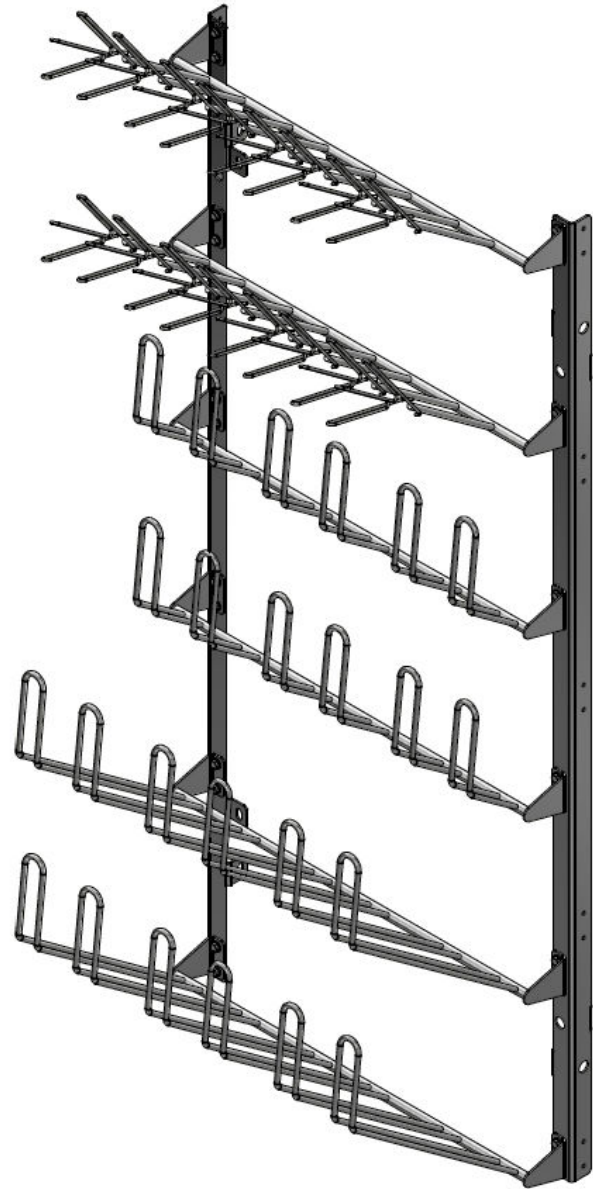

Fit 5 or 6 rows of holders on brackets

NTF wall brackets are reversible, so you can mount either 5 or 6 rows of shoe, boot and glove holders as required. This provides great flexibility in terms of securing suspension for a specific number of people in the available space.

Create space for 12 pairs of boots in several ways, depending on space:

- 6 x 2P boot holder 550mm
- 4 x 3P boot holder 750 mm
- 3 x 4P boot holder 1150mm

For optimal use of height, combine several types of holders.

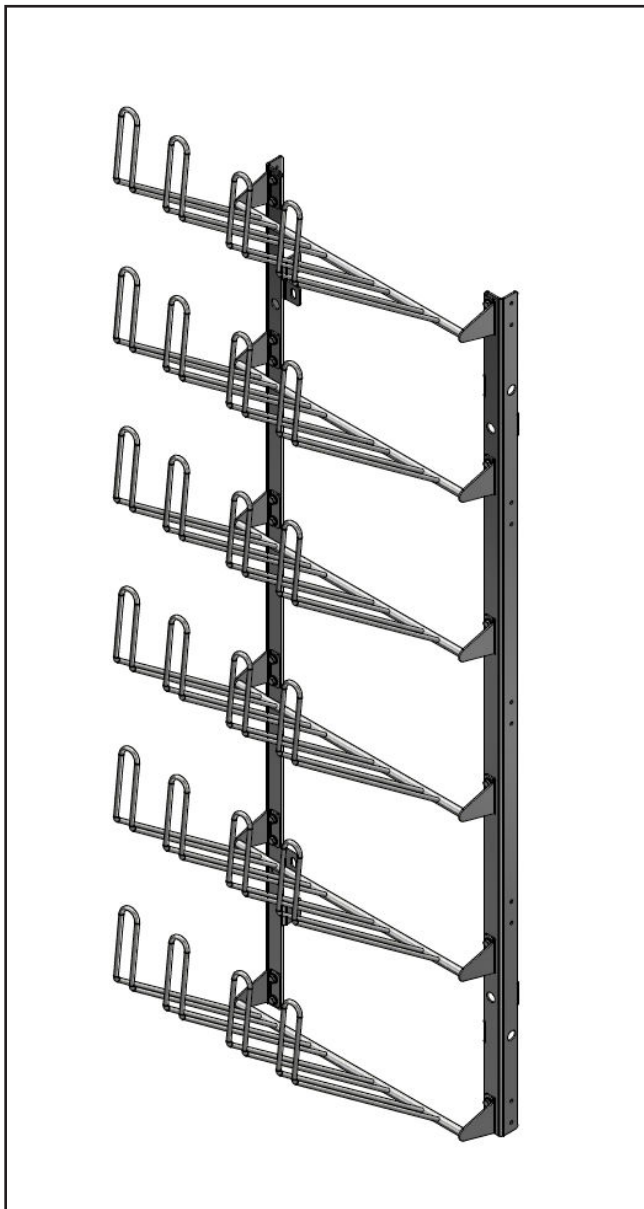

Example for 6 pairs - 750 mm wide

1 x	Wall bracket kit	H001-101
2 x	4P Glove holder	H001-024
2 x	3P Shoe holder	H001-020
2 x	3P Boot holder	H001-022

Wall brackets as well as shoe, boot and glove holders are sold separately, so you can combine and fit them as needed. Just be aware that the shoe, boot and glove holders must be of the same width to fit the wall brackets.

Wall bracket kit for shoe, boot and glove holders

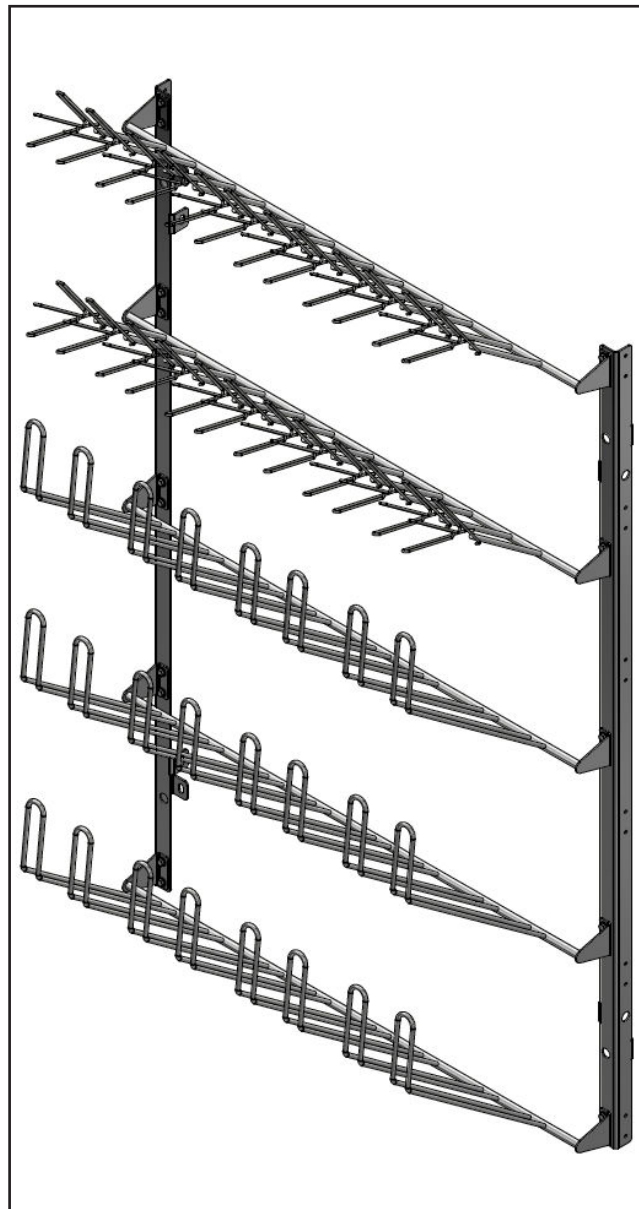

Wall brackets for 6 rows

Distance betw. wall fixings: 1190 mm
Distance betw. holders: 334 mm

Wall Bracket Kit

Wall brackets, combi 5 or 6 rows

Product number: H001-101

Material: Stainless steel AISI 304

Dimension: W: 46 x D: 46 x H: 1750mm

Kit consisting of two wall brackets, which make it possible to mount 5 or 6 shoe, boot and glove holders together.

Fit holders in different widths:

Standard: 550 - 750 - 1150 - 1294 mm

Great flexibility and freedom of choice

NTF wall brackets are reversible, and have pre-drilled holes for fitting 5 or 6 rows of holders, depending on which side you face outwards during installation.

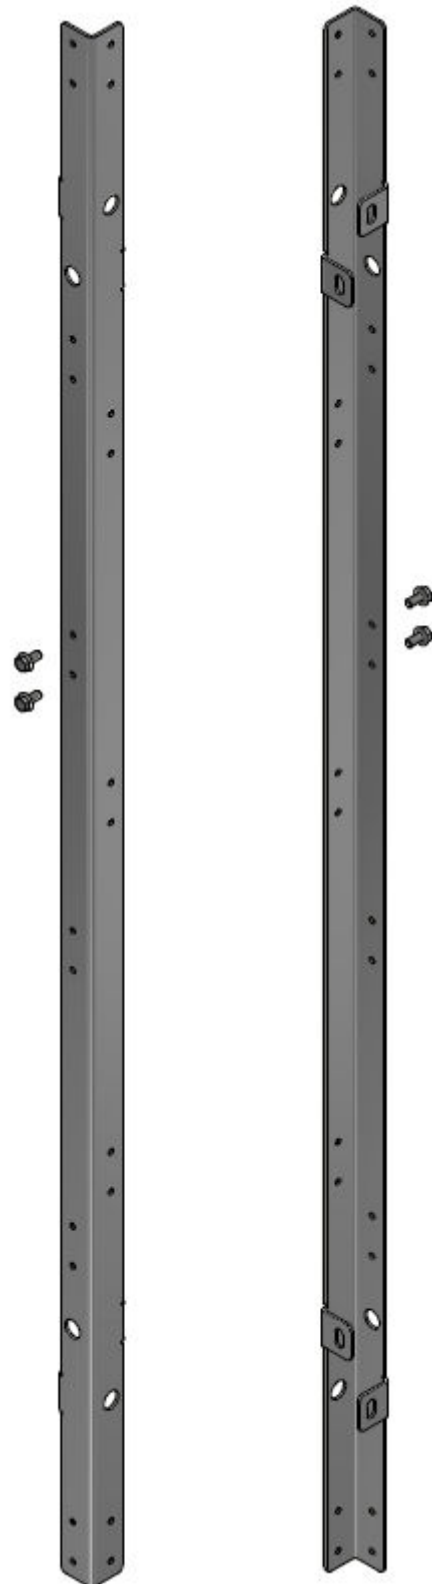

The option to fit 5 or 6 holders with flange bolts ensures a flexible solution that is easy to adapt to the correct number of people.

Hygienic design and easy assembly

The wall brackets have an open profile and are made of AISI 304 stainless steel, which ensures a hygienic product and ease of cleaning.

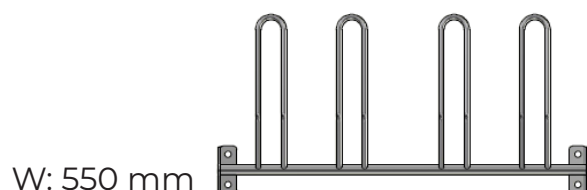

Equipped with pre-drilled holes, which ensure easy and quick marking and fitting.

Mounting kit for wall not included.

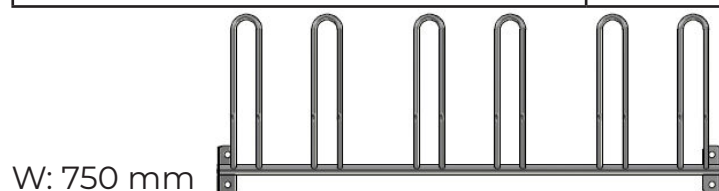

Shoe, boot and glove holders

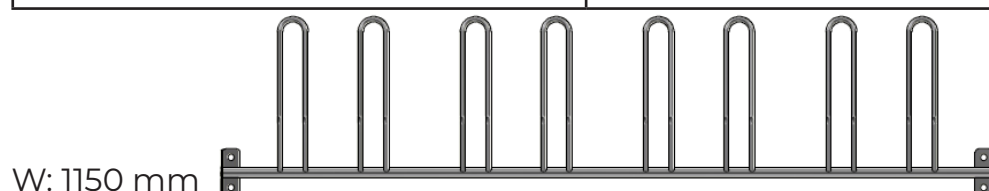

Holders of the same width can be combined as required on wall brackets.
